Welcome letter

Dear Colleagues and guests,

On behalf of the Swiss Transplantation Society and the scientific committee, it is my great pleasure to welcome you to the 18th annual congress of the STS at the Congress Hotel Seepark in Thun.

This year again and thanks to the scientific Committee directed by Hendrik Tevaearai, we tried to stay in close touch with current affairs.

Xenotransplantation is a never-ending story waiting for success. The FDA warned against non-human primates’ experiments while being equivocal about pigs’ experiments. An interesting keynote lecture will be followed by a roundtable discussion. According to the Federal Office of Public Health (FOPH – BAG – OFSP), during the last years about 41% of adults are overweight and 10% obese. Simultaneously 19% of children are overweight or obese. This will have a clear impact in organ transplant recipients and conversely also in donors. Guidelines are not definitively clear on what is possible and what is recommended and the role of obesity in transplantation morbidity. In this setting bariatric surgery is an issue, which should be considered. While looking for increasing organs available for transplantation, there is a special group of organs “that nobody wants”: infected donors. An update will give us new clues.

This congress we will also share again a common session with coordinators and we will have the opportunity to honour a distinguished figure and pioneer in transplantation as well as excellence and innovation in Transplantation in Switzerland with STS awards. The scientific committee evaluated the scientific activity and the research in transplantation in Switzerland produced by prominent colleagues. The six best rated paper published in 2019 will be honoured by receiving the STS awards.

In introduction to the congress and following the interest in 2019, we continue the post-graduate meeting the day before the STS meeting. This provided the opportunity for fellows training in transplantation to meet some main actors of transplantation in Switzerland, while collecting continuing medical education points.

I look forward to meeting you in Thun and wish fruitful multidisciplinary and interprofessional discussions and friendship.

Prof. Maurice Matter
President of STS
Credits

The credits are in demand to the following societies

**SGC/SSC**
Schweizerische Gesellschaft für Chirurgie
Société Suisse de Chirurgie

**SGI/SSI**
Schweizerische Gesellschaft für Infektiologie
Société Suisse d’Infectiologie

**SGG/SSG**
Schweizerische Gesellschaft für Gastroenterologie
Société Suisse de Gastroentérologie

POST-GRADUATE MEETING (limited places – 20)
Doctors in training & interested in kidney transplant
As a Society promoting Organ Transplantation in Switzerland we decided to introduce a postgraduate meeting around the STS congress.
The purposes are:
- To train young doctors in the field of transplantation with basic presentations
- To meet Swiss experts in the domain of transplantation
It is possible to attend the STS congress the following days, but a separate day allows continuity in the transplantation teams in the hospitals.

09.30 – 10.00
Registration – welcome coffee

10.00 – 10.05
Welcome word
Maurice Matter, Lausanne – President of the Swiss Transplantation Society

10.05 – 11.00
Organisation, patients, law and ethics for Transplantation in Switzerland
Franz Immer, Bern

11.00 – 11.30
Immunology
Jean Villard, Geneva

11.30 – 12.00
Immunosuppression
Jean Villard, Geneva

12.00 – 13.00
Cancer and transplantation: what to screen?
Isabelle Binet, St. Gallen

13.00 – 14.00 Lunch
Restaurant Seesaal

14.00 – 16.00
Problems and long-term management in organ transplantation
Room Basel

14.00 – 15.00
Abdominal organs
Kidney: Stefan Schaub, Basel
Liver & Pancreas: Axel Andres, Geneva

15.00 – 16.00
Thoracic organs
Heart: Markus J. Wilhelm, Zurich
Lungs: Angela Koutsokera, Lausanne

CME in demand to
Swiss Society of Internal and General Medicine (SGAIM-SSMIG)
Swiss Society of Surgery (SGC-SSC)

Thursday, January 23, 2020

09.30 – 12.00
Swiss Transplant Working Group Meetings (to be registered separately)

13.00 – 13.05
Welcome
Maurice Matter, Lausanne – President of the Swiss Transplantation Society

13.05 – 13.25
Swiss Transplant Annual Activity Report
Franz Immer, Franziska Beyeler, Swisstransplant, Bern

13.25 – 13.45
STCS Report
Madeleine Wick, Basel

13.45 – 14.15
Presentation of the selected honorary member
Maurice Matter, Lausanne – President of the Swiss Transplantation Society

14.15 – 14.55
Session 1
BIOLOGICALS AND BIOMARKERS IN TRANSPLANTATION
Room Genève
Chair
Michel Duchosal, Lausanne

14.15 – 14.35
Is there a need for biomarkers in transplantation?
Davide Rossi, Bellinzona

14.35 – 14.55
Benefits and risks of biologicals in transplantation
Déla Golshayan, Lausanne

15.00 – 15.30 Coffee break – visit of the exhibition
Foyer 1st floor
Thursday, January 23, 2020

15.30 – 17.00
Session 2
COORDINATOR’S CORNER (program with SDTA) Room Genève
Chair tbc
15.30 – 16.00 tbc
16.00 – 16.30 tbc
16.30 – 17.00 tbc

17.00 – 18.00
Session 3
STS AWARDS Room Genève
Chair Patricia Hirt-Minkowski, Basel
Oral presentation of the six highest ranking papers
CLINICAL PAPERS
17.00 – 17.10 Oral presentation 1 tbc
17.10 – 17.20 Oral presentation 2 tbc
17.20 – 17.30 Oral presentation 2 tbc
LABORATORY PAPERS
17.30 – 17.40 Oral presentation 4 tbc
17.40 – 17.50 Oral presentation 5 tbc
17.50 – 18.00 Oral presentation 6 tbc

18.00 – 18.30
General Assembly Room Genève

19.30 Cocktail with announcement of the Swiss Transplantation Society Awards Foyer

20.00 Networking Dinner Parksaal Hotel Seepark
Friday, January 24, 2020

09.00 – 09.30
Session 4
KEYNOTE LECTURE
Room Genève
Chair
Robert Rieben, Bern
Xenotransplantation: a new state of the art?
Bruno Reichart, Münich

09.30 – 10.15
Session 5
MODERATED ROUNDTABLE DISCUSSION
Room Genève
(with voting system)
Xenotransplantation: is it becoming a reality?
Moderator: Robert Rieben, Bern
Swiss Transplant Society for Patients (STV)
Lara Beekman, Bern
Lara Beekman, Swiss Association of Transplanted patients
Leo Bühler, Geneva
Samia Hurst-Majno, Geneva
Manuel Pascual, Lausanne
Bruno Reichart, Münich

10.15 – 10.45
Coffee break – visit of the exhibition
Foyer 1st floor

10.45 – 11.30
SPONSORED SYMPOSIUM BY ASTELLAS
Room Genève
Optimization in transplantation,
from donation to immunosupression
Chair
Jürg Steiger, Basel
10.45 – 11.05
tmRNAs as new targets for immunosupression
Lukas Jeker, Basel
11.05 – 11.25
At the forefront of liver transplantation –
from surgery to long-term survival
Vanessa Banz, Bern
11.25 – 11.40
Swiss-wide kidney paired donation program –
expendable to other organs?
Jean Villard, Geneva

11.40 – 12.20
Session 6
MANAGEMENT OF RECIPIENTS
WITH VERY HIGH BMI
Room Genève
Chair
Maurice Matter, Lausanne
11.40 – 11.55
Obesity and kidney transplantation
Thomas Wolff, Basel
11.55 – 12.10
Bariatric surgery and transplantation
Philipp Dutkowski, Zurich
12.10 – 12.20
Podium discussion

12.20 – 13.20
Lunch break – visit of the exhibition
Foyer 1st floor

13.20 – 14.00
Session 7
KEYNOTE LECTURE
Room Genève
Infected donors; the organs that nobody wants
Chair
Nicolas Müller, Zurich
13.20 – 14.00
What do we need to feel comfortable with infected donors?
Christian van Delden, Geneva
Friday, January 24, 2020

ECIL* 7 GUIDELINES:
AI RECOMMENDATION
FOR CMV* PROPHYLAXIS
AFTER ALLOGENEIC HSCT†

The first and only CMV DNA terminase inhibitor.2

PREVYMIS® (letermovir) is indicated for prophylaxis of cytomegalovirus (CMV) infection or disease in adult CMV-seropositive recipients [R+] of an allogeneic hematopoietic stem cell transplant (HSCT).2

* Not a real patient. ‡ CMV: Cytomegalovirus; ECIL: European Conference on Infections in Leukaemia; HSCT: haematopoietic stem cell transplantation.

Abbreviated prescribing information PREVYMIS® (letermovir). PREVYMIS® (letermovir): AI: letermovir. I (adults): prophylaxis of cytomegalovirus (CMV) infection or disease in CMV-seropositive recipients [R+] of an allogeneic hematopoietic stem cell transplant (HSCT). D: 480 mg once daily, started no later than 28 days after HSCT; continued for up to 100 days post-HSCT; use the solution for infusion only when oral therapy is impossible; dilute concentrate before administration and slowly administer the entire contents IV over 60 minutes; IV infusion only; do not administer as a rapid infusion or bolus. CI: hypersensitivity to letermovir/2/2 excipients; concomitant administration with pimozide, ergot alkaloids, fluvoxamine, lovastatin, pravastatin, simvastatin, pitavastatin, rosuvastatin, ciclosporin in combination with pitavastatin, simvastatin. Pr: Not recommended in moderate hepatic impairment combined with moderate or severe renal impairment, severe hepatic impairment (Child Pugh C), end-stage renal disease (CrCl < 10ml/min) or dialysis patients; under 18 years: safety and efficacy not established (no data); use with caution with CYP3A substrates with narrow therapeutic ranges. DDI: Co-administration with ciclosporin: PREVYMIS 240 mg once daily, after ciclosporin is discontinued: PREVYMIS 480 mg once daily; potential interactions with other CYP3A inhibitors; may increase the plasma concentrations of amiodarone, glyburide, sirolimus, tacrolimus, replegiline, rosiglitazone, ciclosporin, HMG-CoA reductase inhibitors, midazolam, alfentanil, fentanyl, quinidine; may decrease plasma levels of voriconazole, omeprazole, pantoprazole, phenytoin, warfarin; ciclosporin may increase the plasma levels of PREVYMIS. P/L: use only when cleared required; do not breastfeed. UDE: very common: headache, cough, nausea, diarrhoea, vomiting, abdominal pain. P: film-coated tablets: 28 tablets of 240 mg and 480 mg, vial: 240 mg/12 ml; 480 mg/24 ml. C: A. MAH: MSD Merck Sharp & Dohme AG, Werfstrasse 4, Lucerne, Switzerland. (v1) CH-CYT-00006; Full prescribing information: www.swissmedicinfo.ch;

Before prescribing, please consult the full prescribing information, published on the homepage of Swissmedic (www.swissmedic.ch) or at www.swissmedicinfo.ch.
